

Safety Health and Environmental Awareness (SHEA) WATER

Course Aims

To provide delegates with knowledge and understanding of workplace procedures, hazards and process operations of working within the Water Industry.

The Safety Health and Environmental Awareness (SHEA) suite of schemes have been developed in collaboration with industry to provide a uniform approach to health, safety and environmental awareness training across the utilities sector, in line with Health and Safety Executive guidelines. It is a passport scheme and does not indicate any level of technical competence or skilled expertise.

Who Should Attend?

Our SHEA Water scheme is designed for all persons who require access to operational sites within the water industry, both permanent and temporary, including all levels of operatives, supervisors and management.

Certification

Delegates must complete all eight modules and pass the SHEA Water assessment to gain EUSR SHEA Water registration, valid for 3 years.

SHEA is a CSCS Partner scheme, meaning SHEA registration allows access to CSCS controlled sites for the purpose of utilities work. There is no additional requirement to conduct a touch-screen test or apply separately for a CSCS card, certification from the course will award the delegate with a CSCS certified card.

Agenda

The SHEA Water scheme comprises of eight modules. Six modules are 'core' modules and are relevant for all utility industries and support workplace practice in relation to health, safety and environmental law. Two modules provide content specific to the water industry.

- **Module 1:** Understanding our workplace responsibilities
- **Module 2:** Understanding the effects of our work on the environment
- **Module 3:** Identifying and controlling risks
- **Module 4:** Common hazards in the workplace
- **Module 5:** Occupational health hazards
- **Module 6:** Responding to emergencies
- **Module 7:** Sewerage network and process operations
- **Module 8:** Highway working and excavations
