

## ISO 45001:2018

# Lead Auditor (2338) CQI and IRCA

### Course Aim

The aim of this course is to provide the knowledge and understanding of the new occupational health and safety management system (OHSMS) standard ISO 45001. Delegates will learn how to understand, manage and maintain both internal and external health and safety management duties and performance. This course will enable you to compare your current organisation's arrangements against OHS standards and how you could improve.

### Agenda

- OHSMS Fundamentals
- OHSMS Concepts
- Overview of Auditing an OHSMS
- Auditing Clauses 4-10 of ISO 45001:2018
- ISO 19011 and Auditing
- Audit Planning and Preparation
- Performing the Audit
- Reporting Audit Outcome

### Course Duration

This is a 5 day course.

### Certification

Delegates successfully completing the course will receive a CQI and IRCA Certified training accredited certificate (2338).

## ISO 45001:2018

# Lead Auditor (2338) CQI and IRCA

### Who Should Attend?

This course is aimed at delegates whom are health and safety professionals looking to develop their auditing skills. It is aimed at delegates who regularly assess the health and safety performance of 2nd and 3rd parties. As well as for occupational health and safety practitioners with a responsibility to design, implement and manage a health and safety management system that meets the requirements of ISO 45001:2018.

#### Pre-requisites

Those attending this course are expected to have prior knowledge of the following:

Occupational health & safety management principles and concepts:

- The Plan, Do, Check, Act (PDCA) cycle
- The purpose and benefits of an OH&S management system
- Basic knowledge of managing OH&S through hazard identification, risk assessment and risk control and compliance with legal and other requirements
- A basic awareness of common examples of relevant national and local OH&S legislation and requirements
- Commonly used OH&S terms and definitions as given in ISO 45001

This knowledge can be gained in a number of ways:

- » Previous experience and existing knowledge
- » Attending a CQI and IRCA Certified ISO 45001 Foundation training course – or equivalent
- » Reading or self-study

We can provide the ISO 45001 Foundation course which covers the above criteria.
