

Confined Spaces - E-Learning

Course Aim

This online training course aims to teach delegates how to work safely in confined spaces and poorly ventilated areas. The course seeks to provide delegates with an understanding of their legal responsibilities when working in confined spaces.

Available in over 35 languages

Our courses are machine translated* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

**Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*

Who Should Attend?

Delegates who may be required to work within confined space.

No matter how regularly an employee has to work in a poorly ventilated confined space, it is essential that they are trained to understand the best practices surrounding their safety whilst working in these environments. The importance of this is reflected by the fact that around 15 people in the UK are killed in confined spaces incidents each year.

Course Duration

This is a 35 minute course.

Agenda

The course modules cover:

- What is a Confined Space? Why are they dangerous?
- Legal Duties and Responsibilities
- Preparing for Entry

Certification

Delegates will receive a HSS printable certificate in Confined Spaces upon completion of the course.

This course is approved and accredited by IOSH & RoSPA.
