

Ladder and Stepladder Inspection - Ladder Association

Course Aim

To provide delegates with an understanding of current relevant legislation in order to be able to thoroughly inspect ladders and stepladders, identifying safety critical faults and to record equipment details and inspections as outlined in PUWER.

Who Should Attend?

Managers and supervisors who require the knowledge and practical skills to thoroughly inspect and maintain ladders and stepladders.

Pre-requisites

It is a requirement to have successfully passed the Ladder Association - Ladders & Stepladders User course and have a valid LadderCard prior to attending the Inspection course. [Click here to book your place on the User course before attending the Inspection course.](#)

Course Duration

This is a half day course.

Certification

Successful completion of this course will result in the issuing of a Ladder Association Ladder User's ID card and Certificate of Training valid for 5 years.
